

REMARKS

In addition to the amendments and remarks filed January 3, 2008, entry of this amendment and reconsideration of all claims remaining of record as presently amended are respectfully requested.

This supplemental amendment is provided to correct certain previously submitted amendments to claims 10 and 25. Claims 10 and 25 are directed more particularly toward Applicants' features in a golf game apparatus and golf game computer program product for determining a hit location and a shot power in a two-button (simple) mode of operation. The amendments to these claims are fully supported by the original disclosure and, thus, no new matter has been added. If the Examiner should disagree, however, it is respectfully requested that the challenged amendments/limitations be pointed out with particularity in the next Action so support may be cited in response.

If, in the opinion of the Examiner, an interview would expedite the prosecution of this application, or if any small matter remains outstanding, the Examiner is invited to call the undersigned at the number indicated below. In view of the Applicants' amendments and remarks submitted March 10, 2008 and the forgoing amendments, it is believed that the application is in condition for allowance. Favorable consideration and prompt allowance of this application are respectfully solicited.

Respectfully submitted,

NIXON & VANDERHYE P.C.
